~~CONFIDENTIAL~~

20 May 1957

Chief, Procurement Division, OL  
ATTN : Chief, Contract Administration Branch  
Chief, Engineering Division, OC

PLEASE RETURN TO  
ENGINEERING DIVISION

Contract XG-1606 [REDACTED]  
UGP-12 Manufacturing Tools

25X1

REF : Contractor's proposal dated 2 April 1957

1. The UGP-12 tooling is destined for long term storage under the Military Preparedness Program. In view of the fact that the initial cost of this tooling was approximately \$65,000 and replacement cost would exceed that amount, a preservation cost in the order of \$10,000 is acceptable to this Division.

2. The specifications supplied the contractor, MIL -STD- 107 and MIL -STD- 163, are rather general in their application; therefore, it is suggested that the Supply Division, OL, review these specifications and provide the contractor with more detailed instructions where necessary. Copies of these specifications are attached. Arrangements for eventual storage of this tooling by the military are being initiated. It is requested that the contractor submit an early estimate on the total cubage of the tooling when packed for shipment in order to facilitate these arrangements.

3. Please advise this Division of the total cost of packaging the tooling, including pattern equipment previously omitted, so that funds may be provided.

25X1
